RESOLUTION of SYRIZA - KAISARIANI District, on the WAR IN UKRAINE AND THE planed SANCTIONS of EU AGAINST THE RUSSIAN FEDERATION

Today, on 9 June 2015 the organization of SYRIZA Kaisariani District voted and adopted the following resolution:

"At the beginning of 2014 the legitimate president of Ukraine was toppled by a violent coup organized by far right and Nazi elements.

The inhabitants of the Crimea and Eastern Ukraine did not recognize the new regime and decided by referendums to become independent. In particular the cities of Lugansk and Donetsk they have experienced for the last year the barbarism of the bombing by the Kiev regime with heavy artillery in their cities with carnage of dead and infrastructure disasters.

For these reasons:

1. We condemn the aggressive actions of the authoritarian regime of Kiev against the cities of East Ukraine.
2. We support the maintenance of MINSK II Agreement that includes the demilitarization of the conflict zone and being free from heavy weapons.
3. We call on the Greek government and the Foreign Ministry not to vote for and vote against the planned EU sanctions proposal against Russia in late June, sanctions that will hurt also the struggling people of East Ukraine and will support the authoritarian regime of Kiev.

This resolution will be made public and proposed also to the Central Committee of the party, which is also invited to announce a resolution on this issue. "
